THE VIRTUAL ENTERTAINER AVAILABLE TO MILITARY PERSONNEL

N A S H V I L L E , T e n n . – Universal Electronics, Inc. (UEI), a Nashville based telecommunications firm has worked with Microsoft Corporation to create a new TV-based Internet service for traveling military personnel. This unique UEI Military Service packaged as “The Virtual Entertainer,” offers an array of high speed Internet programming, including entertainment, news, weather, sports, music, video-on-demand, access to email, and much more. UEI Military Service is the first in the industry to provide a TV-based Internet service targeting a military audience. UEI is on the cutting edge of technology by providing such a wide range of Internet

services for traveling military service personnel without a computer.

The new “Virtual Entertainer” offers several functional tiers of operation allowing every lodging visitor the opportunity to access the World Wide Web. It also provides military personnel in-room entertainment on the TV that allows them to browse the Web, watch videos, play games and seek information from numerous sources without the use of a laptop.

UEI Military Service is presently being installed in more than 3,000 lodging guestrooms throughout the Pacific Air Force Command.
